# ⊕ Security

Dual MCUs
Individual MCU for each inside and outside circuits,
Double protection from division and cooperation

Strong Encrypted Door Card
CPU Embedded card with Siemens exclusive encryption algorism,

Anti-cloning by individual identity

Semiconductor Fingerprint Sensor
192 super resolution fingerprint sensor tailor made by FPC,
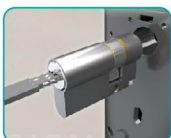

Gun safe level identification algorism

Strong Encrypted Door Card
CPU Embedded card with Siemens exclusive encryption algorism,

Anti-cloning by individual identity

Class C Security Level Cylinder
Cylinder in tortoise with sensor,
Time alarm to prevent technology opening

PIN Code with Imaginary Number
Up to 20 bytes length with imaginary numbers,

Prevent PIN exposed, touch pad fingerprint residue resistant

Kid Lock
Prevent technic opening with peep hole tools,
Protect kids from accidently opening the door.

◎ Humanity

Handle with Bearings
Handle equipped with 4 bearings both inner and outer

Flipping smoothly and prevent handle hang down

Multiple Unlock Methods
Fingerprint, password, encrypted ID card and key,
Easy to use, quick to start for all user types

Status Alert
Alert for unlatched lock status,
Alert for low power status

Door Bell Integrated
Door bell embedded inside door lock,
Excellent speaker chamber design

Voice Menu
Menu voice from real human,
Easy to configure

Emergency Power Supplier
Hidden micro-USB Interface,
Low power emergency carefree

Thumbturn
2 steps to effect (press then rotate),
Prevent kids from accidently locking inside

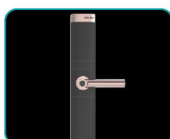

Siemens Smart Door Lock C320

Product Size : 392×80×28.5mm (Lever Not Included)	**A/S Hotline :** 400-821-5192
Component : Exterior body, Interior body, Mortise, AA Batteries×8, Cylinder,	**Website :** www.siemens.com.cn/smartlock
Installation template, User Manual, Accessories, Keys×2, CPU Cards×2	**Manufacturer :** Siemens Ltd., China
Power Supply : AA Batteries, Micro USB charging for Emergency	**Address :** No. 7, Wangjing Zhonghuan Nanlu,
Users Capacity : Fingerprint 100, PIN 50, CPU Cards 10	Chaoyang, Beijing, PRC
Standard : GB21556-2008	
Working Temperature : -25℃ ~ 70℃	
Working Humidity : 20% RH ~ 90% RH

⊞ Security

Stainless Steel Front Panel

Entire front panel made from 2mm thick 304 stainless steel,

High strength protection, drilling resistant, striking resistant

Faraday Cage

Electromagnetic interference Shielding
Strong protection for core PCB circuit inside

Dual MCUs

Individual MCU for each inside and outside circuits,
Double protection from division and cooperation

Strong Encrypted Door Card

CPU Embedded card with Siemens exclusive encryption algorism,
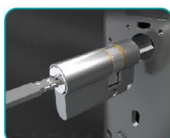

Anti-cloning by individual identity

Semiconductor Fingerprint Sensor

192 super resolution fingerprint sensor tailor made by FPC,
